Reference Letter – International Film Weekend Würzburg

To whom it may concern,

I hereby confirm that Eric Straubel worked together on a subtitling project for a film at the 2024 International Film Weekend in Würzburg. Working together with a team of other students, they were able to deliver high-quality subtitles for as many as four of our films, all within a very short timeframe.

Eric Straubel completed the work using professional software, and produced accurate and natural-sounding subtitles which we used in our festival in front of a large audience. Eric Straubel was able to work within our given parameters, adapting to our needs as required. As such I would be happy to recommend their services, and look forward to also personally collaborating with them again in the future.

Yours faithfully,

Werner Schmitt
